SUMMARY

Frontend-focused Full-Stack Developer with 8+ years of experience building and maintaining production-ready web applications. Strong focus on product thinking, user experience, and performance. Specialized in React, Vue, and Next.js, with hands-on experience developing Progressive Web Apps. Known for end-to-end ownership, stakeholder communication, and delivering high-quality solutions ahead of schedule.

EXPERIENCE

Technical Consultant

Ekko World

10/2024 - Present Brisbane, Australia - Remote

Providing continuous technical support with ownership over issue investigation and resolution. Leading troubleshooting efforts, guiding technical decisions related to bugs and system stability, and supporting the platform through performance improvements and ongoing technical oversight.

Senior Front-End Developer

Ekko World

04/2023 - 10/2024 Brisbane, Australia - Remote

I managed the front end design and development of Ekko Score (Next.js TypeScript PWA). Resolving critical bugs and adding essential features. Additionally, I maintained and improved a custom Node.js CMS to optimize content management for the web app.

Lead Fullstack Developer

Produce Like A Pro

08/2024 - Present California, United States - Remote

Designing, maintaining, and optimizing backend systems, including CRM, membership platforms, and content delivery tools while building automation workflows with tools like Zapier to streamline operations across marketing, sales, and support systems.

Contract Front End Developer

Mind Movies

03/2022 - 08/2023 California, United States - Remote

https://mindmovies.com

As a key contributor within a diverse team at a major company, I played a pivotal role in developing an innovative Progressive Web Application (PWA) using Vue.js, while adopting Scrum methodology to optimize our project processes

- Increased user engagement by 15% by integrating a user reward mechanism.

Freelance Front End Developer

Upwork

01/2022 - Present Remote

https://www.upwork.com/freelancers/abeshiemmanuel

In my spare time, I engage in freelance work, partnering with startups, Fortune 500 corporations, and individual clients to develop and troubleshoot practical web-based solutions

- Maintained a 100% success score on completed projects, demonstrating consistent delivery of client objectives.
- Achieved a near-perfect average rating of 4.986 out of 5, a testament to exceptional service and client satisfaction.

Front End Developer

KonstructApp

04/2019 - 10/2022 Abuja, Nigeria

Intern Software Developer

RHIPFactory Healthcare Startup Studio

03/2018 - 01/2019 Abuja, Nigeria

https://rhipfactory.com

PROUD ACHIEVEMENTS

\$1M+ Payment Integration Owned End-to-End

Built and owned a production payment integration application, processing \$1M+ in transactions. Responsible for architecture, implementation, and ongoing reliability in a live business environment.

Self Taught!

Started programming at 15 and built my skill set through consistent self-learning and real-world projects. Continuously learning and evolving to stay current with modern web technologies.

EDUCATION

B.Sc. Informatics Systems

Vytauto Didžiojo universitetas

08/2021 - 06/2025 Kaunas, Lithuania

SKILLS

Frontend
